FISCAL ANALYSIS

ASSUMPTION

Grants for veterans service officer programs;

Officials from the **Department of Elementary and Secondary Education**, the **Missouri National Guard** and the **Missouri Gaming Commission** assume the proposed legislation would have no fiscal impact on their agencies.

Officials from the **Department of Social Services (DOS)** stated that the proposed legislation expands the projects that can be funded from the Veterans' Commission Capital Improvement Trust Fund to include veterans service officer programs, but does not change the share of money going to the Early Childhood Development, Education, and Care Fund. Therefore, DOS assumes there will be no fiscal impact to their agency.

Officials from the **Veterans' Commission (VET)** assume this proposal will have a impact of (\$750,000) to the Veterans' Commission Capital Improvements Trust Fund in each fiscal year, starting with FY 2002.

Oversight assumes with the emergency clause, the effective date of this proposal would be in FY 2001, therefore the first grants could be issued in July, 2001, which is fiscal year 2002. Oversight also assumes a portion of the veterans' commission capital improvements trust fund's annual \$3 million allotment of gaming revenues shall be earmarked for grants to federally-chartered veterans' organizations. Oversight has ranged the fiscal impact of this proposal from \$0 to (\$750,000) depending on the number of grants issued. Oversight also assumes the Veterans' Commission can process the applications for grants with existing resources.

Donation of motor vehicles to assist military veterans;

Officials from the **Missouri Veterans' Commission (VET)** assume this part of the proposal would not fiscally impact their agency. It may streamline the donation or turnaround of donated vehicles to the VET, but it would have no measurable fiscal impact.

Officials from the **Office of Administration** assume this proposal would not fiscally impact their agency.

FISCAL IMPACT - Small Business

No direct fiscal impact on small businesses would be expected due to this proposal.

DESCRIPTION

This proposal allocates a portion of the Veterans' Commission Capital Improvements Trust Fund for the issuance of \$750,000 annually in matching fund grants for veterans service officer programs. The funds may be issued to any federally-chartered veterans' organization that is certified by the Veterans Administration to process claims within the administration system. Any organization receiving funds must have maintained a veterans service officer presence within the state for 3 years preceding the issuance of grants. The Missouri Veterans Commission must provide applications, establish grant requirements, and approve all grants. The grants will be made available annually and issued in July of each year.

This proposal also allows the Commissioner of Administration to return the title of a vehicle donated to assist military veterans back to the original donor, if that donor intends to donate to the state a newer or superior motor vehicle of the same type to replace the function of the old motor vehicle.

This proposal has an emergency clause.

This legislation is not federally mandated, would not duplicate any other program, and would not require additional capital improvements or rental space.
